**DURABLE & BEAUTIFUL**  
Vinyl Fencing

DURAMAX DELIVERS BEAUTIFUL AND DURABLE VINYL FENCING THAT COMPLEMENTS THE STYLE OF YOUR HOME

TRADITIONAL

The Traditional line of picket fences creates a nostalgic old world feel. You will never worry about repainting these white pickets fences. DuraMax uses a durable route-and-lock design that eliminates all brackets and screws and looks equally beautiful from both sides.

Scallop Dog Ear (4' Tall White 3" Pickets)

Scallop Spade (4' Tall White 3" Pickets)

Straight Dog Ear (3" & 4' Tall White 3" Pickets)

Solid Privacy (5' & 6' Feet Tall White or Tan)

PRIVACY

Our line of Privacy fencing is a significant upgrade to wood fencing with a low maintenance vinyl that will not rot, stain, attract termites or wear out over time.

The DuraMax Privacy Fence is built with a strong route-and-lock system so the pickets, rails and posts will never pull apart. This construction is far superior to screws and brackets which not only fail over time but are also an eye soar.

Low Maintenance and Beautiful is what you can expect from our Privacy Fence line.

Privacy Lattice Top (6' Tall White & Tan)

Privacy Gate w/ Accent Top (6' Tall White or Tan)

Routed construction provides a strong and durable fence, without unsightly brackets, screws or nails.

Pool Fence: 3' & 4' Tall with No Mid Rail

Pool Fence: 5' Tall with Mid Rail White 1.5" pickets

POOL FENCING

The Pool Fence line is designed to surround pool areas and meet all pool codes. Metal fencing around wet pool areas often rust and need repainting. Vinyl fencing is durable and low maintenance, making it the perfect choice for all pools.

The low maintenance vinyl will never rust or need painting, making vinyl pool side fencing the ideal choice for any wet pool area.

Perimeter Fence (5' & 6' Tall with Mid Rail White 1.5" pickets)

Perimeter Fence (3' & 4' Tall with No Mid Rail White 1.5" pickets)

PERIMETER

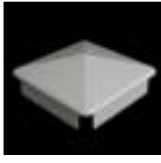

The Perimeter fence line is an ideal substitute for metal fencing used for property lines or for perimeter railings. You'll never need to worry about rusting and repainting metal pickets with our line of low maintenance vinyl perimeter fences.

Engineered For The Southwest Sun™

DuraMax Vinyl Fencing was designed for and is manufactured in the Southwest. DuraMax has been manufacturing Vinyl Products in the Southwest for over two decades and has perfected it's vinyl products to meet the demanding weather conditions of the region.

### Proprietary DuraResin Material

Our proprietary DuraResin® Vinyl is designed to withstand the southwest sun, boasting over 12 parts of Tio2 and highly perfected UV inhibitors and modifiers. With DuraMax you can be sure you're getting the highest quality vinyl that is a permanent and durable fence solution.

### "Route and Lock" Construction

DuraMax Vinyl Fencing is built by routing and interlocking the different fencing parts together. Routed and interlocked members will never pull apart or fail. Our "Route and Lock" construction ensures that your beautiful investment will last forever.

### Thick Walls For Strength & Durability

The walls of all DuraMax Vinyl Fence materials are thick for strength and durability. Thicker walled materials eliminate problems like cracking, sagging and warping over the life of the product and guarantee a low maintenance fence.

### No Nails, Screws or Glues

Screws and nails corrode and rip out. Glues that are used to hold fencing members together dry and crack after years in the sun. DuraMax never uses these non-durable materials.

### Local Fabricators And Trained Dealers

DuraMax has a network of trained local dealers and fabricators who can design and install your custom project. All of our products are installed by these professionals and will meet or exceed our factory standards.

### Go Green with DuraMAX!

DuraMAX Vinyl Building Products are 100% recyclable and reusable. They never need to end up in a landfill. In fact, we recycle over a million pounds of Polyvinyl every year!

The USGBC found that Poly Vinyl performs better relative to environmental impact than alternative materials studied.

Poly Vinyl is FIRE RESISTANT
